Yacht Tenders

Element Yacht Tenders

At Element Boats, innovation is in our DNA. With years of expertise in crafting premium aluminum jet boats, we've mastered the art of blending strength, precision, and performance. Now, we're bringing that same passion and knowledge to the world with our in house developed 'Element Yacht Tender Range'.

Our mission is to offer yacht owners a tender that goes beyond utility—an extension of their lifestyle that combines elegance, durability, and unmatched functionality. Every Element Boat is crafted with a thoughtful selection of materials, combining the strengths each material has.

Built in the heart of the yachting industry of The Netherlands, every Element Boat is a testament to our commitment to craftsmanship and innovation. By transferring our proven expertise in aluminum jet boats to this sector, we're setting a new standard for what a yacht tender must be.

"Redefining the ordinary jet tender."

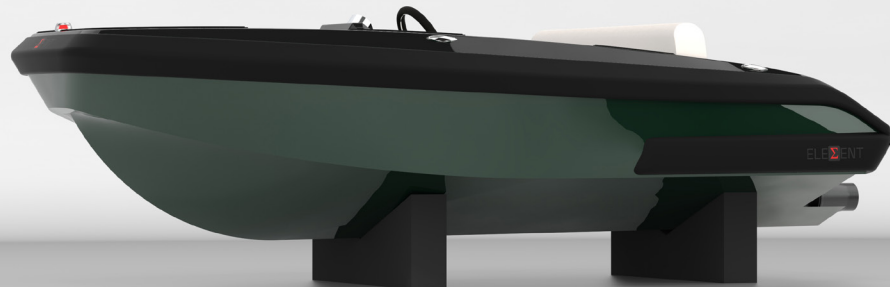

Introducing the Yacht Tender Range

Starting with the smallest
Element Yacht Tender

The ELM35YT

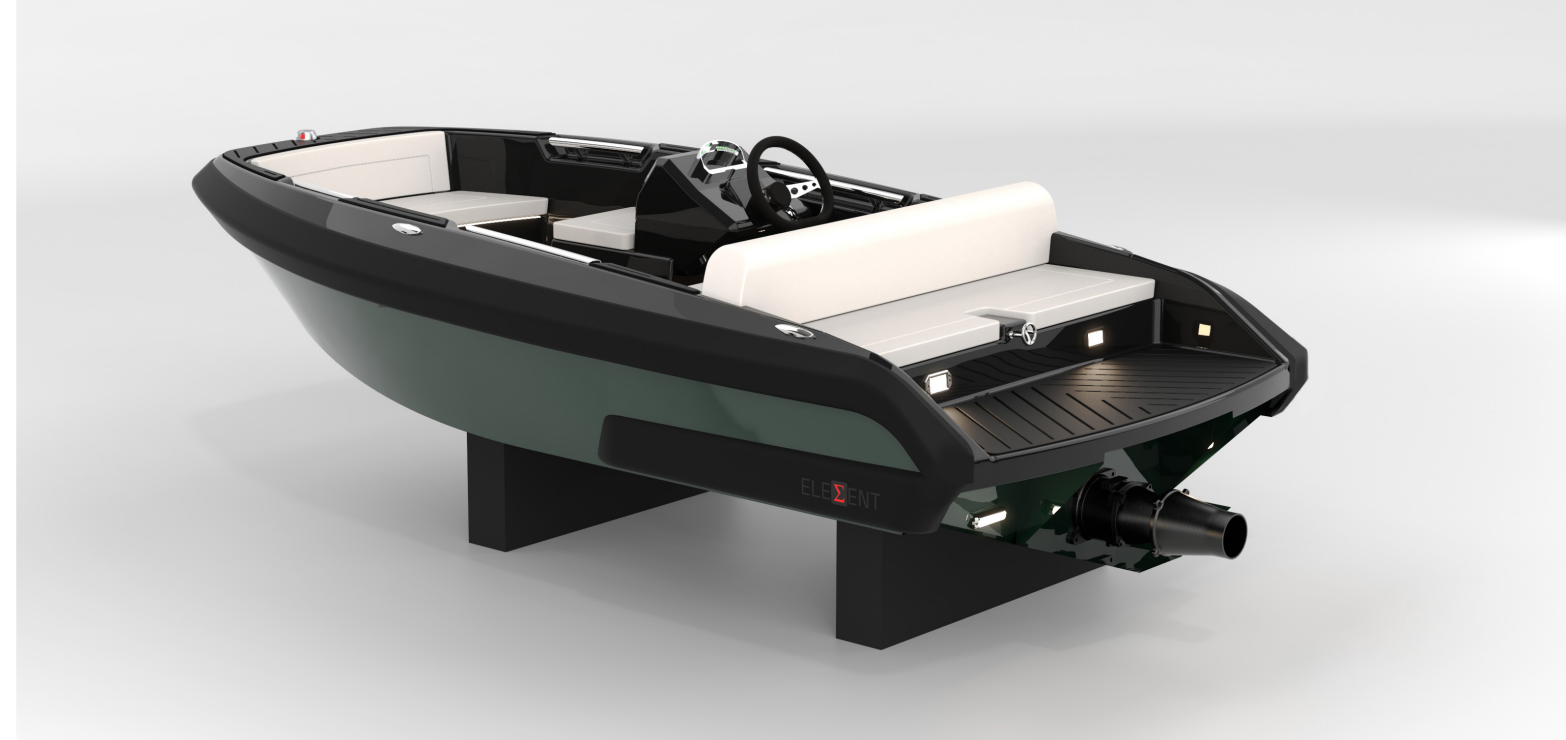

| | |
|-------------|-------------------|
| Length: | 350 cm |
| Width: | 170 cm |
| Dry Weight: | 395 kg |
| Power: | 90 hp |
| Passengers: | 5 pax comfortably |

Core Features of Element Yacht Tenders

- Sophisticated design harmonized with your yacht's aesthetic.
- Purpose-built to integrate seamlessly with yachts.
- Directly interchangeable with current jet tenders, designed to fit all standard tender garages.
- Powerful engine options from Rotax and Belassi, starting at 90hp and scaling up to 350hp for future models.
- 40% more interior space compared to traditional RIB jet tenders, maximizing comfort and functionality.
- Our tenders hull designs are engineered to be more stable than RIB counterparts.
- Robust aluminum hull and sides, ensuring your boat will last no matter what.
- Ergonomically designed seating for a more immersive and secure onboard experience.
- Comprehensive 360° fender system for unmatched protection.
- Marine grade aluminum paired with GRP deck, with premium carbon fiber upgrades available. Ensuring a boat that will outlast any RIB.
- Luxurious cushions crafted for comfort and longevity.
- Ambient lighting included as standard, enhancing the onboard atmosphere.
- EVA-foam padding on all touchpoints for added comfort and safety.
- An array of customization options to tailor the tender to your yacht's unique style.

ELM35YT

Your Yacht's Perfect Companion

Our Yacht Tender is more than just a vessel—it's a seamless extension of your yacht's functionality and elegance. Designed with precision and foresight, this tender integrates effortlessly into every modern yacht, fitting snugly into existing tender garages without the need for modifications. It's a 1:1 replacement for conventional RIB jet tenders, offering you a smooth upgrade to enhanced style, performance, and versatility.

Redefining Versatility on the Water

Designed for those who seek both luxury and excitement, our tenders deliver an unmatched blend of comfort, performance, and adventure. Effortlessly ferry guests to shore in impeccable style, explore new horizons with confidence, or feel the exhilaration of a tender crafted for handling and dynamic performance. Every journey becomes an elevated experience, perfectly complementing the elegance of your yacht and the thrill of exploration.

Endless Customization

Every Element Boat is meticulously crafted to reflect your personal style and enhance the connection with your yacht. With three trim levels—Standard, Premium, and Executive—you have the freedom to customize everything, from brushed aluminum or coated hull finishes to GRP or carbon fiber decks, with a variety of color combinations, including dual-tone options.

Each tender comes equipped with premium vinyl upholstery in an array of colors, polished grab rails for a sleek and refined look, and ambient lighting to create a luxurious atmosphere. The result is a tender that seamlessly integrates with your yacht, elevating both its functionality and aesthetic appeal while complementing your lifestyle on the water.

Feel the Rush, Embrace the Adventure

Step aboard and experience the exhilaration of a tender designed to thrill. Glide effortlessly across calm waters, carve through waves with precision, or take off on an exciting watersports adventure. Every moment is infused with the perfect blend of performance, luxury, and excitement, elevating the joy of being on the water to a whole new level.

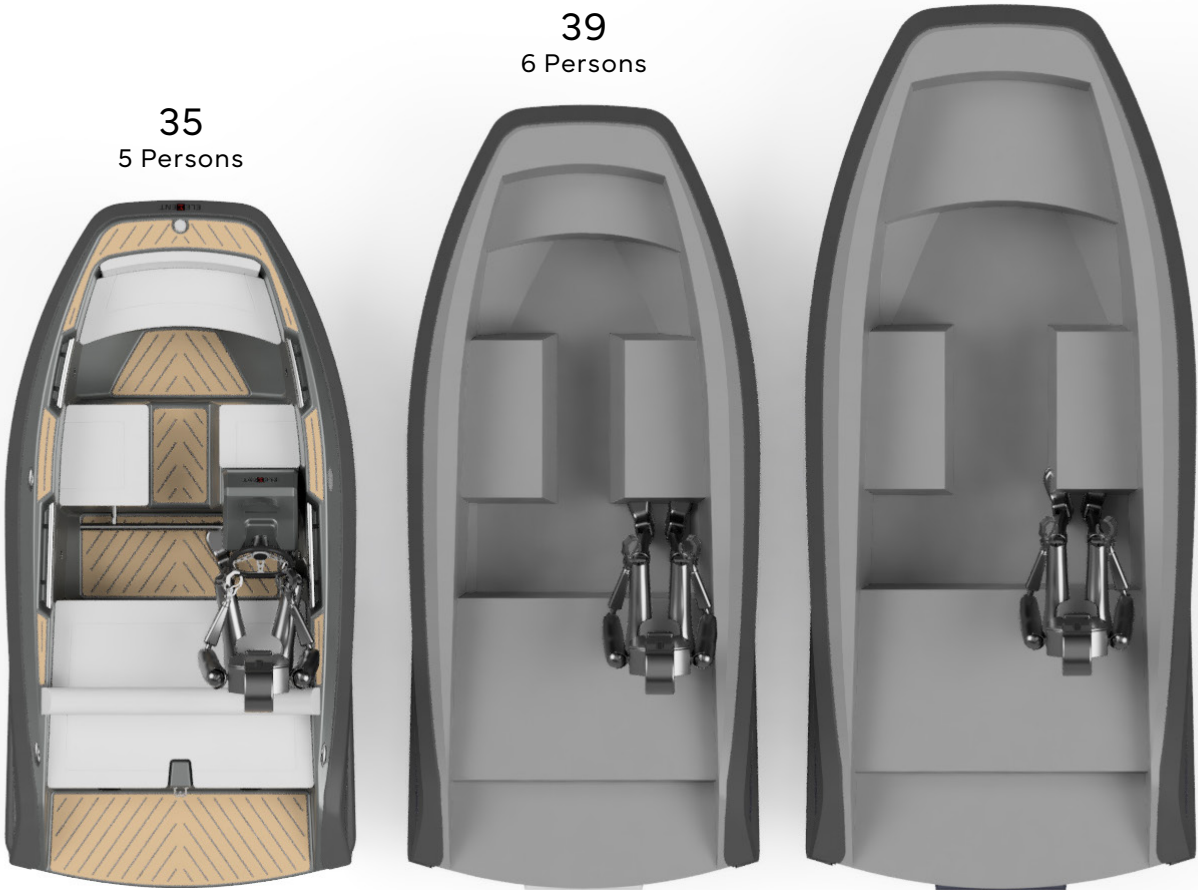

The Element Yacht Tender Family

Introducing the Element Yacht Tender family—a range of models meticulously designed to redefine comfort, performance, and versatility. With lengths starting at 3.5 meters and extending to 5.2 meters, our tenders offer options for every yachting lifestyle, each crafted to deliver an exceptional guest experience.

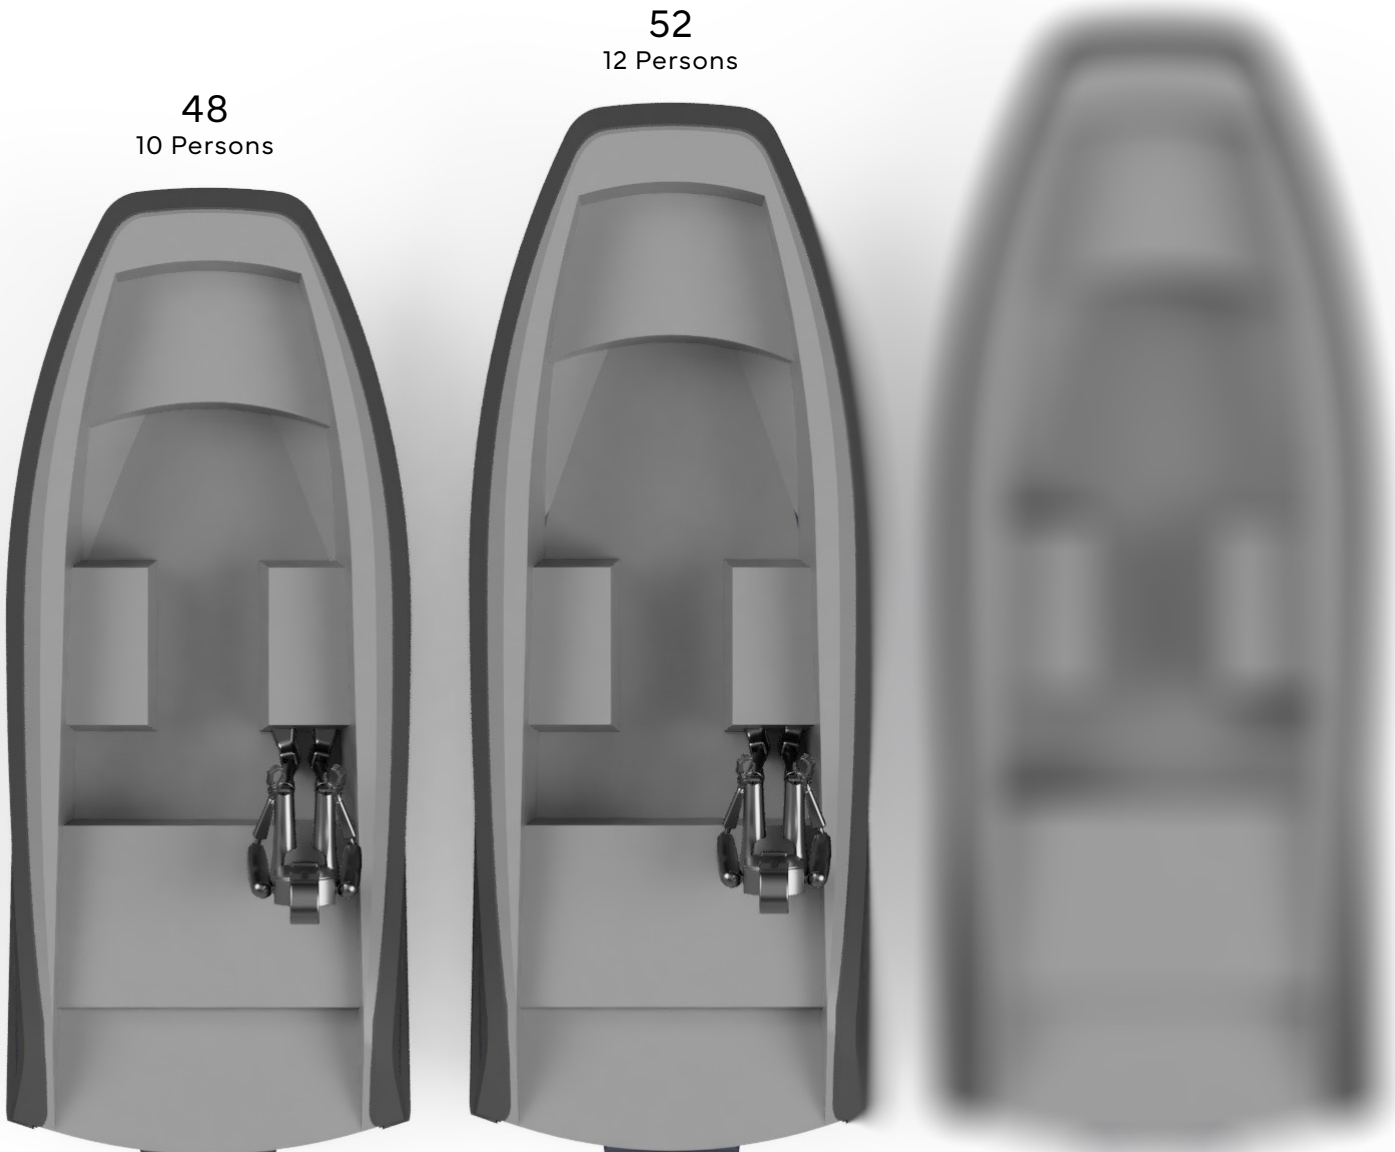

Our smallest tender, the 35, accommodates up to five passengers with ease, while larger models, such as the 52, elevate the standard of luxury, providing ample space to seat up to 10 guests in unmatched comfort. Unlike traditional RIB tenders, our designs prioritize seating guests within the boat for a smoother, more secure experience. Despite this difference, Element tenders maintain the same low-profile design as RIBs, ensuring compatibility with tender garages and seamless integration with your yacht. Additionally, our tenders are engineered to be just as stable—if not more stable—than their RIB counterparts, providing confidence and performance in all conditions.

For those envisioning even greater possibilities, our future models are already on the horizon. A blurred glimpse of what's to come underscores our dedication to continuous innovation and growth, with plans for larger models that will further expand the boundaries of luxury yacht tenders.

No matter the size, every tender in the Element family combines elegant design with practical functionality, offering unparalleled comfort for your guests and a seamless complement to your yacht.

56+
To come in 2026

At the Heart of the Yachting World

Located in Amsterdam, the Netherlands. Recognized as the epicenter of the yachting industry. Element Boats is ideally positioned to provide unparalleled support to both yacht owners and builders. Our central location allows us to work directly with yacht builders, offering seamless integration of our tenders into new yacht projects, as well as swift customization and collaboration opportunities.

From bespoke consultations to expert maintenance and rapid part deliveries, our proximity to the industry's core ensures that we can respond efficiently and professionally to the needs of our clients. With our workshop and office in Amsterdam's industrial harbor zone, we stand ready to support every facet of yacht tender design and operation with precision and reliability.
